

DOP DLC®-A

1: Identification

| | | |
|---------------------------------------|---|---|
| Product identifier: | DOP DLC®-A | |
| Other means of identification: | Diocetyl phthalate on silicon dioxide | |
| Supplier: |  | NATROCHEM, Inc. P.O. Box 1205 Savannah, GA 31402-1205 912-236-4464 |
| Recommended use: | Rubber plasticizer | |
| Restrictions on use: | Not applicable. | |
| Emergency phone number: | CHEMTREC (USA) | 800-424-9300 |
| | CHEMTREC (Int'l) | 202-483-7616 |

2: Hazard(s) identification

GHS classification:

| Hazard Class | Category |
|-----------------|----------|
| Eye irritant | 2B |
| Carcinogenicity | 2 |

GHS label elements

Signal word:

WARNING

Symbol(s):

Hazard statements:

H320: Causes eye irritation
H351: Suspected of causing cancer
May form combustible dust concentrations in the air.

Hazards not otherwise classified:

Precautionary statements:

Prevention:

Avoid breathing dust/fume/ gas/mist/vapours/spray.
Do not get in eyes, on skin, or on clothing.
Do not eat, drink or smoke when using this product.
Avoid release to the environment.

Response:

IF ON SKIN (or hair): Wash with plenty of soap and water.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
IF exposed or concerned: Call a POISON CENTER/ doctor if you feel unwell.
In case of fire: Use dry chemical, CO₂, water spray (fog), or foam to

| | |
|----------------------------------|--|
| Storage: | extinguish. Store in a dry place. Store in a closed container. |
| Disposal: | Dispose of contents/container in accordance with applicable regulations. |
| Supplemental information: | Not applicable. |

3: Composition

Substance/mixture: Mixture

| Ingredient | Synonyms | CAS number | Concentration (%) |
|--|----------|-------------|-------------------|
| Diocetyl phthalate | | 117-81-7 | 70-74 |
| Silica, amorphous, precipitated, and gel | | 112926-00-8 | 26-30 |

Contains no detectable crystalline silica (detection limit <0.01% by weight)

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

4: First-aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM, OR PHYSICIAN immediately; have SDS information available. Never give anything by mouth to an unconscious or convulsing person.

Description of necessary first aid measures

| | |
|----------------------|---|
| Eye contact: | Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention. |
| Inhalation: | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular, or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact: | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion: | If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed.

Potential acute health effects

| | |
|---------------------|------------------------|
| Eye contact: | Causes eye irritation. |
|---------------------|------------------------|

| | |
|----------------------|---|
| Inhalation: | Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat, and lungs. |
| Skin contact: | Prolonged or repeated contact may dry skin and cause irritation. |
| Ingestion: | May be irritating to mouth, throat, and stomach. |

Over-exposure signs/symptoms

| | |
|----------------------|---|
| Eye contact: | Adverse symptoms may include the following: Irritation Watering Redness |
| Inhalation: | Adverse symptoms may include the following: Coughing Respiratory tract irritation |
| Skin contact: | Adverse symptoms may include the following: Dryness |
| Ingestion: | No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary

| | |
|------------------------------------|---|
| Notes to physician: | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments: | No specific treatment. |
| Protection of first-aiders: | No action shall be taken involving any personal risk or without suitable training. |

See toxicological information (Section 11)

5: Fire-fighting measures

Extinguishing media

| | |
|---|---|
| Suitable extinguishing media: | Use dry chemical, CO ₂ , water spray (fog), or foam. |
| Unsuitable extinguishing media: | Do not use a solid water stream as it may scatter and spread fire. |
| Specific hazards arising from the chemical: | Product forms a slippery surface when combined with water. Fine dust clouds may form explosive mixtures with air. |
| Hazardous thermal decomposition products: | In the event of a fire, hazardous decomposition products may include: Carbon monoxide Carbon dioxide Other unidentified organic compounds |
| Special protective actions for firefighters: | No action shall be taken involving any personal risk or without proper training. |
| Special protective equipment for firefighters: | Firefighters and others who may be exposed to products of combustion should wear full firefighting turn out gear (full bunker gear) and self-contained breathing apparatus (SCBA) operated in pressure-demand mode (MSHA/NIOSH approved or equivalent). |

6: Accidental release measures

Personal precautions, protective equipment, and emergency procedures

For non-emergency personnel: Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Product forms slippery surface when combined with water. No action shall be taken involving any personal risk or without suitable training.

For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in **Section 8** on suitable and unsuitable materials. See also the information immediately above in "For non-emergency personnel".

Environmental precautions: Avoid release to sewers, waterways, soil, or air. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil, or air).

Methods and materials for containment and cleaning up

Small spill: Avoid generating dust. Vacuum or sweep up material and place in a designated, labeled waste container.

Large spill: Avoid generating dust. Vacuum or sweep up material and place in a designated, labeled waste container.

See **Section 1** for emergency contact information.

See **Section 8** for information on appropriate personal protective equipment.

See **Section 13** for additional waste treatment information.

7: Handling and storage

Precautions for safe handling

Protective measures: Put on appropriate personal protective equipment (see **Section 8**).
Advice on general occupational hygiene: Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored, and processed. Workers should wash hands and face before eating, drinking, and smoking. Remove contaminated clothing and protective equipment before entering eating areas. When transferring material into flammable solvents, use proper grounding to avoid electrical sparks. Avoid alteration of product properties before use. Calcining (which may result in crystalline silica formation) or mixing with additives may alter toxicological properties.

Conditions for safe storage, including any incompatibilities: See also **Section 8** for additional information on hygiene measures. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool, and well-ventilated area away from incompatible materials (see **Section 10**) and food and drink. Keep container tightly closed and sealed until ready for use. Do not store in unlabeled containers.

8: Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient | OSHA PEL | ACGIH TLV | NIOSH REL |
|-------------------|--|-------------------------|-------------------------|
| Dioctyl phthalate | 5 mg/m ³ TWA 10 mg/m ³ STEL | 5 mg/m ³ TWA | 5 mg/m ³ TWA |

Recommended monitoring procedures:

If this product contains ingredients with exposure limits, personal, workplace atmosphere, or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Appropriate engineering controls:

Environmental exposure controls:

Emissions from ventilation or work process equipment should be checked to ensure that they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters, or engineering modifications to process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures:

Wash hands, forearms, and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory, and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases, or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: splash goggles.

Skin protection

Hand protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. When handling hot material, wear heat-resistant gloves that are able to withstand the temperature of molten product.

Body protection:

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection:

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

9: Physical and chemical properties

Appearance

| | |
|--|-----------------------------------|
| Physical state: | Powder, solid, or granular solid. |
| Color: | White to off-white. |
| Odor: | Not available. |
| Odor threshold: | Not available. |
| pH: | Not available. |
| Melting/freezing point: | Not available. |
| Boiling point and range: | Not available. |
| Flash point: | Not available. |
| Evaporation rate: | Not available. |
| Flammability: | Not available. |
| Flammability or explosive limits: | Not available. |
| Vapor pressure: | Not available. |
| Vapor density: | Not available. |
| Relative density: | Not available. |
| Solubility: | Not available. |
| Partition coefficient: n-octanol/water: | Not available. |
| Auto-ignition temperature: | Not available. |
| Decomposition temperature: | Not available. |
| Viscosity: | Not applicable. |

10: Stability and reactivity

| | |
|--|---|
| Reactivity: | No specific test data related to reactivity available for this product or its ingredients. |
| Chemical stability: | This product is stable. |
| Possibility of hazardous reactions: | Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid: | High temperature (>800°C) treatment (calcining), which may result in crystalline silica formation. Avoid alteration of product properties before use. Calcining or mixing with additives may alter toxicological properties. Avoid generating dust. |
| Incompatible materials: | Refer to protective measures listed in Sections 7 and 8 . Reactive or incompatible with the following materials: |

| | |
|--|---|
| Hazardous decomposition products: | Acids |
| | Oxidizing materials |
| | Strong alkalis |
| | In the event of a fire, hazardous decomposition products may include: |
| | Carbon monoxide |
| | Carbon dioxide |
| | Other unidentified organic compounds |

11: Toxicological information

Information on toxicological effects

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Acute toxicity

Conclusion/summary: No known significant effects or critical hazards.

| Ingredient | Result | Species | Dose | Exposure |
|--------------------|-------------------------|---------|--------------|----------|
| Diocetyl phthalate | LD ₅₀ oral | Rat | 30,000 mg/kg | - |
| | LD ₅₀ dermal | Rabbit | 25,000 mg/kg | - |

Irritation/corrosion

Conclusion/summary

Skin: Mild irritant (Rabbit, 24 h)
Eyes: Mild irritant (Rat, 24 h)
Respiratory: No known significant effects or critical hazards.

Sensitization

Conclusion/summary:

Skin: No known significant effects or critical hazards.
Respiratory: No known significant effects or critical hazards.

Mutagenicity:

Conclusion/summary: No known significant effects or critical hazards.

Carcinogenicity

Conclusion/summary: No known significant effects or critical hazards.

Classification

| Ingredient | OSHA | IARC | NTP |
|--|------|------|---|
| Silica, amorphous, precipitated, and gel | - | 3 | - |
| Diocetyl phthalate | - | 2B | Reasonably anticipated to be a human carcinogen |

Carcinogen classification code:

IARC: 1, 2A, 2B, 3, 4

NTP: [Known/Reasonably anticipated] to be a human carcinogen

OSHA: +

Not listed/regulated: -

Reproductive toxicity

Conclusion/summary: No known significant effects or critical hazards.

Teratogenicity

Conclusion/summary: No known significant effects or critical hazards.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Target organs

Contains material which may cause damage to the following organs:
upper respiratory tract, eyes.

Aspiration hazard

Not available.

Information on the likely routes of exposure:

Routes of entry anticipated: oral, dermal, inhalation.

Potential acute health effects

Eye contact:

Causes eye irritation.

Inhalation:

Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat, and lungs.

Skin contact:

Prolonged or repeated contact may dry skin and cause irritation.

Ingestion:

May be irritating to the mouth, throat, and stomach.

Symptoms related to the physical, chemical, and toxicological characteristics

Eye contact:

Adverse symptoms may include the following:

Irritation

Watering

Redness

Inhalation:

Adverse symptoms may include the following:

Coughing

Respiratory tract irritation

Skin contact:

Adverse symptoms may include the following:

Dryness

Ingestion:

No specific data.

Delayed and immediate effects and also chronic effects from short- and long-term exposure

Conclusion/summary:

An epidemiological study was conducted which included 165 precipitated silica workers who had been exposed an average time of 8.6 years. Of these 165 workers, 44 had been exposed for an average of 18 years. No adverse effects were noted in complete medical examinations (including chest roentgenograms) of these workers. Pulmonary function decrements were correlated only with smoking and age but not with the degree or duration of dust exposures. Laboratory studies have also been conducted in small animals via inhalation of levels of precipitated silica dust of up to 126 mg/m³ per periods from six months to two years. Although precipitated silica was temporarily deposited in animals' lungs, most of the deposited material was cleared soon after the dust exposure ended. The results of all studies performed by, or known to, PPG indicated a very low order of pulmonary activity for synthetic precipitated silicas. PPG recommends that persons with breathing problems or lung disease should not work in dusty areas unless a physician approves and

certifies their fitness to wear respiratory protection.

Short-term exposure

Potential immediate effects

No significant irritation expected other than possible mechanical irritation.

Potential delayed effects

Prolonged or repeated contact may dry skin and cause irritation.

Long-term exposure

Potential immediate effects

Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation.

Potential delayed effects

Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation.

Potential chronic health effects

General:

No known significant effects or critical hazards.

Carcinogenicity:

No known significant effects or critical hazards.

Mutagenicity:

No known significant effects or critical hazards.

Teratogenicity:

No known significant effects or critical hazards.

Developmental effects:

No known significant effects or critical hazards.

Fertility effects:

No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

12: Ecological information

Toxicity

| Ingredient | Result | Species | Exposure |
|--|------------------------------------|---------------------------------------|-----------------|
| Silica, amorphous, precipitated, and gel | NOEC > 1000 ppm | Daphnia – <i>daphnia magna</i> | 24 hours |
| | Acute NOEC > 10000 ppm fresh water | Fish | 96 hours static |
| | Acute NOEC > 10000 ppm | Fish – <i>brachydanio rerio</i> | 4 days static |
| Diocetyl phthalate | Acute LC50 690 µg/L | Fish – Channel catfish | 96 h |
| | Acute LC50 32,900 µg/L | Fish – Largemouth bass | 96 h |
| | Acute LC50 139,500 µg/L | Fish – Rainbow trout, Donaldson trout | 96 h |
| | Acute LC50 42,100 µg/L | Fish – Largemouth bass | 96 h |
| | Acute LC50 6,180 µg/L | Fish – Goldfish | 96 h |
| | Acute LC50 11,000 µg/L | Aquatic invertebrates, water flea | 48 h |
| | Acute LC50 133 µg/L | Aquatic invertebrates, water flea | 48 h |
| | Acute LC50 2 mg/L | Aquatic invertebrates, water flea | 48 h |
| | Acute LC50 31,000,000 µg/L | Aquatic plants - dinoflagellate | 96 h |
| | Chronic NOEC 598.2 µg/L | Fish – Rainbow trout, Donaldson trout | 90 d |
| | Chronic NOEC 502 µg/L | Fish – Rainbow trout, Donaldson trout | 49 d |
| | Chronic NOEC 502 µg/L | Fish – Rainbow trout, Donaldson trout | 42 d |
| | Chronic NOEC 502 µg/L | Fish – Rainbow trout, Donaldson trout | 90 d |
| Chronic NOEC 77 µg/L | Aquatic invertebrates, water flea | 21 d | |
| Chronic NOEC 0.064 mg/L | Aquatic invertebrates, water flea | 21 d | |

Persistence and degradability

| Ingredient | Aquatic half-life | Photolysis | Biodegradability |
|--|-------------------|------------|------------------|
| Silica, amorphous, precipitated, and gel | - | - | Not readily |

Bioaccumulative potential

| Ingredient | LogP _{ow} | BCF | Potential |
|--|--------------------|----------|-----------|
| Silica, amorphous, precipitated, and gel | - | 0 | low |
| Diocetyl phthalate | 7.6 | 1,380.00 | high |

Mobility in soil

| | |
|--|---|
| Soil/water partition coefficient (K_{oc}): | Not available. |
| Other adverse effects: | No known significant effects or critical hazards. |

13: Disposal considerations

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions, and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Disposal should be in accordance with applicable regional, national, and local laws and regulations.

| Ingredient | CAS number | RCRA Hazardous Waste | |
|-------------------|------------|----------------------|----------------|
| | | Toxic "U" List | Acute "P" List |
| Diethyl phthalate | 117-81-7 | Listed | Not listed |

Refer to Sections 6, 7, and 8 for additional information on accidental release measures, handling and storage, and exposure controls.

14: Transport information

| | DOT | IMDG | IATA |
|------------------------------------|--|-----------------|-----------------|
| UN number | UN3077 | No information | No information |
| UN proper shipping name | Environmentally hazardous substances, solid, n.o.s. (Diethylhexyl phthalate), RQ | - | - |
| Transport hazard class(es) | 9 | - | - |
| Packing group | III | - | - |
| Environmental hazards | No. | No. | No. |
| Marine pollutant substances | Not applicable. | Not applicable. | Not applicable. |
| Additional information | When one container contains more than RQ of 100 lb of DOP | - | - |

Special precautions for user: **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code: Not available.

15: Regulatory information

Inventory status

| | |
|---|--|
| United States inventory (TSCA 8b): | All components are listed or exempted. |
| Australia inventory (AICS): | All components are listed or exempted. |
| Canada inventory (DSL): | All components are listed or exempted. |
| China inventory (IECSC): | All components are listed or exempted. |
| Europe inventory (REACH): | All components are listed or exempted. |
| Japan inventory (ENCS): | Please contact your supplier for information on the inventory status of this material. |
| Korea inventory (KECI): | All components are listed or exempted. |
| New Zealand inventory (NZIoC): | All components are listed or exempted. |
| Philippines inventory (PICCS): | All components are listed or exempted. |

United States

US Federal regulations:

SARA Title III

Section 302 – Extremely Hazardous Chemicals:

The components in this product are either not SARA Section 302 regulated or are regulated but present in negligible concentrations.

Section 311/312 – Hazard Categories:

| | Acute | Chronic | Fire | Sudden Release | Reactive |
|--------------------|-------|---------|------|----------------|----------|
| Diocetyl phthalate | no | yes | no | no | no |

Section 313 – Toxic Chemicals:

This product contains the following toxic chemical(s) subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 and 40 CFR 372:

Di(2-ethylhexyl)phthalate 117-81-7

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) – Reportable Quantity (RQ)

The components of this product are either not CERCLA regulated, regulated but present in negligible concentrations, or regulated with no assigned reportable quantity.
